

# Where Will I Be

## Golden Earring

Where will I be?  
When the sun wont shine anymore  
Where will I be?  
When the moon wont smile anymore Where will I be?  
Where will I be? Maybe theres a place to hide from the frost  
A place where life can get lost  
Until then the end is near  
And the skies will never be clear Where will I be?  
When the sun aint shining  
Where will I be?  
When the moon aint smiling Where will I be?  
Where will I be? When the children stop crying  
Where will I be?  
When the sun comes near flying  
Faster than a bird Is this again the birth of the earth?  
No place to hide from the warmth  
Where the rays can do no harm  
Where will I be? When the sun is burning  
Where will I be?  
When man is yearning for deliverance  
Where will I be?
