

Tell Me What You Dream

Restless Heart

All of the night you hold out for love
You give what you have, still that's not enough, what went wrong?
'Cos now what we share, are too many fears
Too many secrets, too many years tonight Tell me what you dream at night, while you're sleeping
Tell me what you see at night, in your dreams
Is it someone else's arms that hold you tight
Or darling is it me?
Tell me what you dream at night, while you sleep Deep in the night you whisper so low
I lay by your side, I felt so alone, alone
I reached for your arms, you called out a name
It wasn't my own, it caused me such much pain inside Tell me what you dream at night, while you're sleeping
Tell me what you see at night, in your dreams
Is it someone else's arms that hold you tight
Or darling is it me?
Tell me what you dream at night, while you sleep
