

Breaking Away

Avantasia

Don't wait my friend, we better don't think twice
Time to fell the prison guard, you gotta realize
No turning back again, therefore it's all too late
New horizons wait I know the time has come to leave your past behind
And now the time has come to stop them controlling your mind Breaking away
All we can do now is break away
Otherwise she will be dying
While both of us are lying here in chains Breaking away
All we can do now is break away
Oh, otherwise she will be dying
While both of us are lying caught in chains
Breaking away Always been a novice in quest for paradise
Hope they will forgive me for I apostatize
I can't be no hypocrite, can't wear a masquerade
New horizons wait And now the time has come to go another way
To learn for life and to grow ripe and prevent the decay Breaking away
All we can do now is break away
Otherwise she will be dying
While both of us are lying here in chains Breaking away
All we can do now is break away
Oh, otherwise she will be dying
While both of us are lying here caught in chains Breaking away
It is so hard to lay down what I've been
But I must go even if my way leads to Hades Breaking away
All we can do now is break away
Oh, otherwise she will be dying
While both of us are lying caught in chains Breaking away
All we can do now is break away
Oh, otherwise she will be dying
While both of us are lying caught in chains
