Crystal Fighters

Follow, follow
Follow, follow

You're the one I follow
Follow to the middle
Middle of the shadows
Far away from all the sorrows

You're the one I follow
Follow all the way oh
Way into the darkness,
Where the sun is shining yellow

You're the one I follow
Follow to the middle
Middle of the shadows
Far away from all the sorrows
You're the one I follow
Follow all the way oh
Way into the darkness,
Where the sun is shining yellow

Follow
Follow
Follow
Follow

You're the one i follow
Way into the darkness, into the darkness
When the sun is shining yellow
(Following a hole in the water?)
Follow Follow Follow Follow Follow
You're the one i follow

You're the one i follow
Middle of the shadow
You're the one i follow
Follow all the way-o (way oh?)
Way into the darkness, into the darkness when the sun is shining yellow
