Follow, follow

Follow, follow

You're the one I follow

Follow to the middle

Middle of the shadows

Far away from all the sorrows

You're the one I follow

Follow all the way oh

Way into the darkness,

Where the sun is shining yellow

You're the one I follow

Follow to the middle

Middle of the shadows

Far away from all the sorrows

You're the one I follow

Follow all the way oh

Way into the darkness,

Where the sun is shining yellow

Follow

Follow

Follow

Follow

You're the one i follow

Way into the darkness, into the darkness

When the sun is shining yellow

(Following a hole in the water?)

Follow Follow Follow Follow Follow

You're the one i follow

You're the one i follow

Middle of the shadow

You're the one i follow

Follow all the way-o (way oh?)

Way into the darkness, into the darkness when the sun is shining yellow
