

Tag Along

Michael Greenberg

Tag along baby girl close behind tender sweet
Tag along little feet all is well within your world
Don't believe all you hear, never fear, never fear
Shut your mouth tag alongShe's too young for that

She don't know, don't know

Don't know not yet

Shut your mouthShe's too young for that

She don't know, don't know

Don't know not yet

I never even said a wordBut she can see right through my eyes
Still too young to understandShould you go, should you go there?

Should you go, should you go now?

Everything, everything's alright

Everything, everything's just fine
