

Night Song

Bottom Line

I asked you for your advice
You told me what was on your mind
You said that I'm a sacrifice
I didn't think it would be so unkind
I can't be doing this to you
Didn't think it'd be so difficult
The words we say aren't all that true
Hesitate to insult..... And it seems, that you're directing it to me
I only go by what I see
I asked you for your advice
You told me what was on your mind
You said that I'm a sacrifice
I didn't think it would be so unkind
You can't know someone until you really know yourself...
