

Day Dreamin'

[Anthony Hamilton](#)

Well, ooh, hey, baby, baby, I can just feel it all in my bones
Thinking of your loveliness and when you'll be coming home
Baby girl, I will intend in doing what I gotta do
To be their holding and loving you Day dreaming when I sleep, caught up in the memories
I know love and it plays for keeps, too good to be real
Day dreaming when I sleep, caught up in the memories
Of loving, loving baby Each and every time the thought of you passed my mind
I don't know what else to do, baby
I think I'm falling, falling, falling deeper in love, baby
But you just keep calling in my mind Day dreaming when I sleep, caught up in the memories
I know love and it plays for keeps, too good to be real
Day dreaming when I sleep, caught up in the memories
Of loving, loving baby All I know that it's so good
Feeling so, so baby please
This love is too good to be true
And, yeah, I think of you Day dreaming when I sleep, caught up in the memories
I know love and it plays for keeps, too good to be real
Day dreaming when I sleep, caught up in the memories
Of loving, loving baby
