

# St. Clare (Album Version)

## Suzanne Vega

call on that saint  
and the candle that burns  
keeping her safe  
until her returnplaster and paint  
holding the fire  
a poor woman's saint  
holding all man's desirebold little bird  
fly away home  
could I but ride herd  
on the wind and the foamall of the souls  
that curl by the fire  
they never know  
all man's desirewatercress clings  
to the banks of the stream  
in the first grip of spring  
when the snow melts to greenbarefoot and cold  
and holding a lyre  
by the side of the road  
holding all man's desirecall on the saint  
when the white candle burns  
keeping her safe  
until her return
