I Wanna Stay

Gemma Hayes

I wanna stay
Out all night
With youYeah you make my world all rightNo sun was up
Today we didn't mind
Too busy making the rain shineAnd there goes
Everything
And I don't careYeah there goes
Everything
And I just don't careAs long as you're nearI gotta stay
Out all night
'Til I'm back feeling alrightAnd there goes
Everything
And I don't careYeah there goes
Everything
And I just don't careAs long as you're near
