

# Be Here Now

Mason Jennings

Be here now, no other place to be  
Or just sit there dreaming of how life would be  
If we were somewhere better  
Somewhere far away from all all worries  
Well, here we are  
You are the love of my life  
Be here now, no other place to be  
All the doubts that linger, just set them free  
And let good things happen  
And let the future come into each moment  
Like a rising sun  
You are the love of my life  
You are the love of my life  
Yeah, you know you are  
Sun comes up and we start again  
Sun comes up and we start again  
Sun comes up and we start again  
Sun comes up and we start again  
Sun comes up and we start again  
Sun comes up and we start again  
And it's all new today  
All we have to say  
Is be here now  
Be here now, no other place to be  
This whole world keeps changing, come change with me  
Everything that's happened, all that's yet to come  
Is here inside this moment, it's the only one  
You are the love of my life  
You are the love of my life  
Yeah, you know you are  
Sun comes up and we start again  
Sun comes up and we start again  
Sun comes up and we start again  
Sun comes up and we start again  
Sun comes up and we start again  
Sun comes up and we start again  
It's all new today  
All we have to say  
Is be here now
