

# Happiness Is All the Rage

## The Promise Ring

I got my body and my mind on the same page  
And honey now, happiness is all the rage  
I got my body and my mind on the same page  
And honey now, happiness is all the rageAnd we could do more outdoor things  
If we weren't so busy getting busy  
So doing laundry finally, the first sign of first light  
And still there's nothing to wear between usAnd I got my body and my mind on the same page  
And honey now, happiness is all the rage  
I got my body and my mind on the same page  
And honey now, happiness is all the rageAnd I am so filled with just one girl  
My eyes barely open, I can barely read  
So this is the end of the past, the first sign of first light  
Yeah, now, it's alright between usI got my body and my mind on the same page  
And honey now, happiness is all the rage  
I got my body and my mind on the same page  
And honey now, happiness is all the rage  
It's all the rageAnd still there's nothing to wear between usAnd happiness is all the rage  
Happiness is all the rage  
Happiness is all the rage  
And happiness is all the rage
