Summertime Suicide

Murderdolls

As the daylight died on the summertime suicide
As the daylight died on the summertime suicide
She left her letter beside her bed
And it read that she would be dead
By the time that read it
There was a trail of blood that lead
Down to the cellar and that's where
That's where I found her
So beautiful with a blood stained head
I wish I could've been there
As the daylight died on the summertime suicide
As the daylight died on the summertime suicide
As the daylight died on the summertime suicide
As the daylight died on the summertime suicide
And in this letter now I write
Why I must now say goodnight forever

And on that day, my heart died
And with this bullet I'll take my life
God damn her!!!
So beautiful with a blood stained head
I wish I could've been there
As the daylight died on the summertime suicide
As the daylight died on the summertime suicide
As the daylight died on the summertime suicide
As the daylight died on the summertime suicide
As the daylight died on the summertime suicide
As the daylight died on the summertime suicide
As the daylight died on the summertime suicide
As the daylight died on the summertime suicide
Suicide
Suicide
Suicide!
