

Sightless

Solitude Aeturnus

Paths illuminated by hells fires
Floating onward to ends demise
 Turn to see the once was
 turn to see what was
This spirit flails with twisted motion
 Another claimed by god's delusions
 This spirit flails with twisted motion
Another claimed by god's delusionsWith a weary heart
 Accepting defeat
 Soiled from within
 Tainted by existence
 Softly speaking with tongues of anguish
 The calm invades breath the foul air
 Composed of nothing I return to nothing
 Composed of nothing I return
 Reclaimed again the beauty departs
 Wings of life never gain flight
 Reclaimed again the beauty departs
Wings of life never gain flightWith a weary heart
 Accepting defeat
 Soiled from within
 Tainted by existenceGoodbye to the known
 Embrace the black hell
 names for demons still unknown
 Floating onward to ends demise
The calm invades breath the foul air
This spirit flails with twisted motion
 Another claimed by god's delusions
 This spirit flails with twisted motion
 Sightless as the flesh tears(x2)
 With a weary heart
 Accepting defeat
 Soiled from within
 Tainted by existence
