Somebody Out There

Kate Alexa

I'm tired of being alone,
missing someone i dont even know
crazy but all ive been through
was just another way of getting back to youits only a matter of time
seperate lives will be two worlds that collide
dont go asking me why
i believe what im feeling insideChorus.
Somebody out there's got my name on their heart
somebody out there is watching the same star
i'm counting the hours now and it wont be long
till i find that somebody out there
whos the one
whos the oneI hear the words you dont say
like a favourite song that i never play
are you all that you seem
or are you just a picture taken from a dreamI know that im not making sense
but i like what i see and i wanna see more
love is my only defence
i believe that is what i am here forChorus.A thousand miles
a million smiles
how many more to go
im shouting out
can't live without
you I want to knowChorus.]x2
whos the onetill i find that somebody out there
whos the one
