

Repeat

Jacob Latimore

Verse 1

Every day is lonely
Every night is even more
I just wanna see you
See you walk through that door
I just wanna have you,
Have you back with me
Life without you just don't mean a thing
But when I close my eyes
Even just in my mind, Im with you

Chorus

I keep you on repeat
Playing all the things that you said in my head
I constantly rewind
I keep reliving moments we shared
When you were there
Ill replay it till the day that I see you again
Ill keep you on repeat on repeat on repeat (X2)

Verse 2

In these empty hours didnt seem to last a day
Waiting for the moment when I see your face
When you gonna see me and when are you gonna call
Life without you aint no life at all
But when I close my eyes your right there by my side
Im with you

Chorus

I keep you on repeat
Playing all the things that you said in my head
I constantly rewind
I keep reliving moments we shared
When you were there
Ill replay it till the day that I see you again
Ill keep you on repeat on repeat on repeat
Ill keep you beside me
Even if its in my mind
Ill keep you on repeat keep playing all the things that you said in my head
I constantly rewind
I keep reliving moments we shared
When you were there yea

And Ill replay it till the day that I see you again
Ill keep you on repeat on repeat on repeat
Ill keep you on repeat keep playing all the things that you said in my head
Keep you on repeat
Keep you on repeat
