

# Goodbye (Daraspa Deep Mix)

## Apparat

Let's go into bed Please put me to bed  
And turn down the light Fold out your hands  
Give me a sign  
Hold down your lies  
Lay down next to me  
Don't listen when I scream  
Bury your thoughts (doubts)  
And fall asleep  
Find out  
I was just a bad dream Let the bed sheet  
Soak up my tears  
And watch the only way out disappear  
Don't tell me why  
Kiss me goodbye For Neither ever, nor never  
Goodbye  
Neither ever, nor never  
Goodbye  
Neither ever, nor never  
Goodbye  
Goodbye
