You've Got Nothing

My Bloody Valentine

Touch me in the morning
I will touch you in the night
Raining down inside my head
Unburden me with my life
It's the secret in my ear
I never thought you'd care
Cut my arms and bind your legs
(???) in her hair
If you're wondering why
Look into my eyes
If you can understand

Take me by the hand
Come follow me
'Cause I've got something
(???)
'Cause you've got nothing
Hey hey hey, I never loved you that way
No no no, not something that I could say
Look at your eyes 'cause you said something
About how I feel cause that means nothing
Hey hey hey, not something that you will say
No no no, never liked you that way
