## Wish I Had a Boat

## **Tyler Farr**

Wish I had a boat

Another hot day, another cold beer

Sweatin' my tail off, just got off my John Deere

My buddy called, said they're headin' down to party cove, yeah

Got my koozie, got my flip flops

Coleman cooler full of ice and twist tops

Truck hitch is ready but I ain't got nothing to towWish I had boat I could float

Kick it on down the river

On the lake in the shade

It don't even matter

Long as that thing will float

Wish I had a boatSittin' on the bank, wishful drinkin'

Sun is burnin', my back is bakin'

Just tryin' to get one of my buddies to pick up the phone (come on, man)

Tiny bikinis, tan lines and tattoos

That damn sand bar is way too far to swim to

They're flocking to them Johnson's

Like bees to a honeycombWish I had boat I could float

Kick it on down the river

On the lake in the shade

It don't even matter

Long as that thing will float

Wish I had a boat

Aww, yes I doI like my truck, my country house

Only thing that's missing right nowWish I had a boat I could float

Kick it on down the river

On the lake in the shade

It don't even matter

Long as that thing will floatWish I had boat I could float

Kick it on down the river

On the lake in the shade

It don't even matter

Long as that thing will float

Wish I had a boat

Wish I had a boat

Wish I had a boat
