Endless Life

The Verve

Drink the water to ease my pain
Nights like these I only read about
Nights like these I only dreamt aboutAs we turned, as we rolled
I felt something strange
I felt youSomething light
Something so bright
I think it was the way of things
I think it was the way of thingsBack, come back again
Get me a life
Get me a life
And see it in everythingThrough the dim light
Through those dim lights
I've fallen, I'm falling, falling, falling, falling
In the endless lifeEndless life, endless life
Endless life, endless life
Endless life, endless life
Endless life, endless lifeEndless life, endless life
Endless life, endless life
Endless life, endless life
Endless life, endless life
