Clean Light

The Mowgli's

Share these lyrics on Facebook!
Sometimes I think away these days
The way I spend them hiding
Sometimes I can't lift up my head
Maybe you can find me.
All you need to know,
Look for a light that's shining
All we see nowWe see a fire starting.
I swear I dream of waking up
To find the future screaming
But I've been sleepwalking so much
I don't remember dreaming
All we need to know
Look for a light that's shining
All we see now
We see a fire starting
We all look bright here
Underneath the sun
The same clean light, in the same loveWe'll all be here if the end is coming up
The same clean light, in the same love
So when you crawl into your head
What do you think you're missing?
I will lift you up again
I will always listen
All we need to know
Look for a light that's shining
All we see nowWe see a fire starting
We all look bright here underneath the sun
The same clean light, in the same love
We'll all be here if the end is coming up
The same clean light in the same love
I hope you know that love is good enough
What doesn't change will slip and fall away
I hope you know you're loved
And that's enough
What doesn't change
Doesn't matter anyway
We are underneath the sun in the same love
