Forever Changed

Saru

Verse 1:
She remembers the nights he'd come calling
His yellow silk tie
In love she saw him
Falling for her in the fire of July
Then one day as the nights grew longer
Blackberry winter in a little white church
Stood a young pretty bride
Chorus:
Forever changed, forever changed
Nothing ever stays the same
Forever named, forever changed
Verse 2:
She remembers the change in her body
The blooming within
And how her heart seemed to flutter with the wind
Then one night as the days grew longer
That Indian summer
She brought love to the world
Cried and held me

Chorus:
Forever changed, forever changed
Nothing ever stays the same
Forever child, forever changed
Verse 3:
Some day she'll talk about Aunt Rosie
The sister she lost
Asking why she hasn't come over
And why she hasn't called
Some days I just hold her fragile hand
As time creeps across the floor
Some days it almost kills me
Watching her memory slip away a little more
Chorus:
Forever changed, forever changed
Nothing ever stays the same
Forever named
Forever child

Forever loved
Forever changed
