I'm So Used To Loving You

Conway Twitty & Loretta Lynn

I'm so used to loving you sweetheart you're on my mind each minute we're apart
And I love you more each day that we go through
You're my life and I'll live it loving you
I'm so used to loving you it seems
I can't stand the thought of losing you not even in my dream
Hold me close and tell me what I'd do without you
I couldn't take it I'm so used to loving you
[steel + guitar]
I'm so used to the little things you say like hello darlin' did you have a busy day
And the way you hold me close when day is through
Yes you're my love and I'll love it loving you
I'm so used to loving you...
