

A Light in a Darkened World

Killswitch Engage

I've seen so much corruption
And it's hard to endure
Living on greed and positions
Is this what we're dying for Now choose this day
Who you will serve
To be the light
In the darkened world Many are willing
To only live for themselves
Turning away from morality
Nothing can turn you now Now choose this day
Who you will serve
To be the light
In a darkened world You fail us all
And the waters beginning to rise
Become the light
In this darkened world This is destiny
The choice is now defined
No more deception
Now days will charm It's in your hand's
It's in your hand's Now choose this day
Who you will serve
To be the light
In a darkened world It's in your hand's (it's in your hand's)
It's in your hand's (your hand's)
Become the light
In this darkened world
