

# Something New (feat. Etta Bond)

SiR

[Verse 1: SiR]

I found another life in London, it's true  
I fell in love with the summer  
Fell in love with you  
You shine your light in the winter  
I'll miss the darkest view  
Now it's the perfect season  
To swim the deepest blue[Hook: SiR]  
And if everything else falls apart  
I still have you  
If I can't find my way back home  
We'll make something new  
Something new

[Verse 2: Etta Bond]

Now we off, one another  
It's true  
Something like no other  
Tell me what would you do if she was me  
Tell me how would you move if we're afraid[Hook: SiR & Etta Bond]  
And if everything else falls apart  
I still have you  
If I can't find my way back home  
We'll make something new  
Something new

[Outro]
