

# What Could've Been

## Gone West

I haven't stopped thinking about you  
Has it really been this long?  
Two years and an ocean between us  
And I don't know where it all went wrong  
I know I coulda kissed you harder  
And yeah, you coulda followed through  
Shoulda talked a little bit softer  
But we meant every "I love you"  
I don't know what this is or what it isn't  
But it feels like we've got unfinished business  
Cause we left blood the on the tracks  
Sweat on the saddle  
Fire in the hills  
A bullet in the barrel  
Words never said in a story that didn't end  
Looks like you're on the mend and I'm on the bottle  
We folded our hands with money on the table  
Tried moving on, but I keep coming back again  
To what could've been...  
What could've been  
Oh, what could've been  
Yeah, yeah, yeah, yeah  
A couple more simple I'm sorry's  
A little less tryna be right  
I wonder how many good mornings we wasted  
'Cause we didn't say goodnight  
One touch before we fell asleep  
Just before our love was out of reach  
Coulda been enough, coulda saved us from this loneliness  
'Cause we left blood the on the tracks  
Sweat on the saddle  
Fire in the hills  
A bullet in the barrel  
Words never said in a story that didn't end  
Looks like you're on the mend and I'm on the bottle  
We folded our hands with money on the table  
Tried moving on, but I keep coming back again  
To what could've been...  
What could've been  
Oh, what could've been  
Oh I thought I'd see it clearly from a distance  
But it still feels like we've got unfinished business  
'Cause baby, we left blood the on the tracks

Sweat on the saddle  
Fire in the hills  
A bullet in the barrel  
Words never said in a story that didn't end  
Looks like you're on the mend and I'm on the bottle  
We folded our hands with money on the table  
Tried moving on, but I keep coming back again  
Oh, what could've been  
Oh, what could've been  
Mmm, what could've been  
Shoulda been Do you still wonder?  
Still, wonder?
