

Eternally

DOXA

I learned today that you were gone forever
and I'm not really sure of what to say
I wish I had another chance to tell you
I always thought there'd be another day

I would tell you just how much he loves you
How He came into my heart and changed my life
If only I just had another moment
but moments come and go in this short life

Listen to my words now my dear friend
no one lives forever don't pretend
it's time to recognize the urgency
and realize He died for you and me

We might not even have another day
I've seen too many souls just slip away
Heaven is the place I want to be
Follow Jesus live eternally

I'd like to tell you just how much he loves you
How He came into my heart and changed my life
If only I just had another moment
but moments come and go in this short life

Listen to my words now my dear friend
no one lives forever don't pretend
it's time to recognize the urgency
and realize He died for you and me

We might not even have another day
I've seen too many souls just slip away
Heaven is the place I want to be
Follow Jesus live eternally
