(l.o.v.e.) Four Letter Word

Billy Squier

L-O...whaddo I know
V-E...she's not comin' back to me
L-O...I can't let go
V-E...tell ya what that girl don't mean to me
So you see my friend...
LOVE is just a four letter word
Once there were schoolyards with children at play
Once there was England...and one sunny day
One kinda woman for one kinda man
How could I know I was not in her plans
Say love...say love
When I was soarin' you urged me to fly
When I was hungry you fed me your lines
Led me to water...you sang me your song
One day when I woke up I found you were gone
Say love...say love...
Say love...say love...
Nobody told me...LOVE is just a four letter word
L is for losin' the love that you crave
And O is when it's over and your heart can't explain
V is for the victim...the victim of the crime
And E is every morning when you break down on time
So you see my friend...LOVE is just a four letter word
L-O...I can't let go
V-E...friends all say just let it be

L-O...oo-oo
V-E...
Forget your illusions...forget what they say
'Cause all your dreams of happiness
Have just blown away
Once in a lifetime your spirit will fly
That's what she told me 'fore she told me good-bye
Love...say love
Love...say love
So you see my friend...LOVE is just a four letter word
L is for losers when fortune turns blue
And O is overcomin' what you know to be true
V is for the vengeance that's left out in the rain

And E is each and every night you crumble in pain
So you see my friend...LOVE is just a four letter word
So you see my friend...
I say "STOP - DON'T SAY IT"
So you see my friend...LOVE is just a four letter word
L-O...whaddo I know
V-E...she's not comin' back to me
L-O...I can't let go
V-E...tell ya what that girl don't mean to me
We're just the victims of the powers that be
