Canâ€™t Change the Beat (Remixed By Vaughn_e)

Combichrist

I gotta bring it, I gotta hold it
I gotta force it out like it never happened at all
I need to be, I gotta hold it
I need to fail and it's so sensationalAnd they sent you through the ages
Now you want me to restrain me
Tried to reach through and I failed you
And now we're begging for more, I am here for youCan't change the beat
Can't change the beat
Can't change the beat
Change the beat, change the beatCan't change the beat
Can't change the beat
Can't change the beat
Change the beatCan't stand alone, we never did
Keeps me alive as we begin
You oughta know how we will starve
Aesthetic, let it, force it, never againCan't change the beat
Can't change the beat
Can't change the beat
Change the beat, change the beatCan't change the beat
Can't change the beat
Can't change the beat
Change the beatCan't change the beat
Can't change the beat
Can't change the beat
Change the beat, change the beatCan't change the beat
Can't change the beat
Can't change the beat
Change the beat
