

# Love Songs For Robots

## Patrick Watson

Breaking down, and days came longer  
There's the other class dragons chasing you around  
    Sit around on silver just stream on the smoke  
    Is rising over your thoughts and your tears  
    Watch over you, watch and fall down  
    You knock a boulder all over the ground  
        You get up, get up  
    You get up, you get upSome things let go  
    At least for now all these tears past the problems  
Stop listen to new words from around as you're 'round  
    And all the captives you burn, is burning out  
    Watch as the flowers, thrones and winds  
        Spills close as a way, spills away  
Get up, you get up, get upYou get upYou get up
