

Rock 'n' Roll Fear (Triturated By Big Toxic)

Sexy Sadie

I 've come across a million miles,
ten different worlds and heavens to be here
I 've sailed across a thousand seas
and climbed the sky to get near.
And now I 've got you face to face and I can 't...
can 't touch your skin!
I 've been riding day and night,
night and day to look at you
I 've met magic and met death
trying to get to you.
And now I 've got you face to face and I can 't...
can 't make it real!
And now I 've got you face to face and I can 't...
rock and roll fear!
rock and roll fear!
rock and roll fear!
My face grew long when all those guys
told me where you belong.
Since that day I 've been just a tramp
roaming with mind on you.
And now I 've got you face to face and I can 't...
can 't make it real!
And now I 've got you face to face and I can 't...
rock and roll fear!
rock and roll fear!
rock and roll fear!
