Long To Go

From Autumn To Ashes

Believe it or not
The notes are trying to talk to me
I've got to applaud such valiant efforts
It's not always the party that it seems to beIt can be a complete debacle
This is not the most routine
Nine to five you see
There's some occupational hazardsPerhaps you'll try to save my spot?
Just until the album drops
Then I'll be at the Capri shop
Adjacent to the Graham L stopBelieve it or not, we're not the ideal guys to date
I guess I'm a risky decision
But you did not write me off, you knew that I could change
I'm studying my guide to safetyPerhaps you'll try to save my spot?
Just until the album drops
Then I'll be at the Capri shop
Adjacent to the Graham L stopIt's so hard to tell
It's so hard to tellOr am I singing from obligation
When all I want is to feel my heart rate
Accelerate and we acceleratePerhaps you'll try to save my spot?
Just until the album drops
Then I'll be at the Capri shop
Adjacent to the Graham L stop
