

# Detonator

## outcum

### Chorus

Lettin' loose it's the detonator setting off a time bomb, ring the alarm  
I'm coming thru with the wickedness  
    inject the fluid of the sickest and watch as I kick this  
Lettin' loose it's the detonator setting off a time bomb, ring the alarm  
I'm coming thru with the wickedness  
    inject the fluid of the sickest and watch as I kick this  
    I got a nation of millions to capture  
        lyrical disaster pass the ganja  
        choppin' shit like a bladerunner  
        huntin down my opponents like the predator  
        ready to start my search like the hunt for red october 31st  
            day of my birth had much pain as an adolescent  
            natural stigmata, much drama when Mom's was stressin  
            they're on my trail like the bone collector  
                select the sense from my sixth  
                inject the fluid of the wickedness  
                fuck the world! is my motto  
        I just can't understand why they point the finger  
            when they see me doing my thing  
            bitches swing when they see me pass by  
        in the GS4 with the Cane plates bought from my last tour  
            it's amityville horror on haters block  
        for those that copycat my tactics trying to make it to the top  
        like in the shining when Jack Nicholson got possessed with the wickedness  
            I'm true to kicking this

Chorus

Lettin' loose it's the detonator setting off a time bomb, ring the alarm  
I'm coming thru with the wickedness  
    inject the fluid of the sickest and watch as I kick this  
Lettin' loose it's the detonator setting off a time bomb, ring the alarm  
I'm coming thru with the wickedness  
    inject the fluid of the sickest and watch as I kick this  
    Like Manson dismantling MCs who oppose a threat  
    you really don't want to get into some shit that you'll regret  
    cause like Samuel I hold the whole place for negotiation  
    incarcerating anyone with the temptation trying to test my faith  
        (is it safe to come out and play now) is he gone?

man i don't understand what kind of high this dude is trippin on  
pure ICE with a twist of vanilla thriller  
captivating souls like the body snatchers  
its return of the living Caucasians  
of psychopathic mind grabbing Asiatic demonic fanatics  
causing havoc bringing the pain  
flaming up like in Backdraft  
feel the wrath of the lyrical combustion  
many aren't true to what they're busting  
(from the depths)  
I'm coming through like the Hell Raiser  
it's the end of days there's no escape from the detonator  
Chorus  
Lettin' loose it's the detonator setting off a time bomb, ring the alarm  
I'm coming thru with the wickedness  
inject the fluid of the sickest and watch as I kick this  
Lettin' loose it's the detonator setting off a time bomb, ring the alarm  
I'm coming thru with the wickedness  
inject the fluid of the sickest and watch as I kick this
