

Tiny, King of the Jews

Big Black

I started out drinking, states that winnie
mm mm all in me
And I killed another day
On the wall there's another there
I hacked through another night
By the look of mm my hand
I'm adrift and I can't mm
I started out hating myself and when I'm through
I've gotta have something to hate, and I guess it's you
Man's gotta have something to hate, guess I'll do
And when I'm through with myself, I'll start on you
Everything I do, it's do-or-die
I started out drinking, I wonder why
I started out drinking, mm mm mm mm
mm mm mm mm all in me
And I killed another day
On the wall there's another there
I hacked through another night
Another wrinkle in my skin
Another trip that I can't make
Man's gotta hate someone, and I guess I'll do
And when I'm through with myself, I'll start on you
I started out hating myself, now that I'm through
I'm looking for someone to hate, guess you'll do
