

# Wolves At The Door

## Strange Negotiations

It looks like I found heaven  
It's on the tip of my tongue  
And it reminded me of  
All the times I was young I'm catching rain in my open mouth  
I used to smile 'til the day I found out  
I have no idea who the hell I've become  
It's not who I was, it's not who I love I wanna drown in a sea filled with Novocaine  
I wanna burn on a beach where the sand  
Has thousands of needles poking at my skin I lie in bed to the sound  
Of the wolves at my door  
They are speaking in tongues  
Oh, they join on my floor I never thought it would come to this  
Eyes more yellow than my own piss  
They're making rounds just to even the score  
Just open the door, just open the door I wanna drown in a sea filled with Novocaine  
I wanna burn on a beach where the sand  
Is littered with razorblades  
Littered with razorblades, blades  
Littered with razorblades I can't hold on, the path is clear  
I can't ignore what's been building for years  
There's wolves at the door, I won't hide here in fear  
Wolves at the door I look at myself and the things that I've done  
Stare away from the mirror and into the sun  
I forgave myself for all of my mistakes  
When will I learn? When will I, when will I burn? I wanna drown in a sea filled with Novocaine  
I wanna burn on a beach where the sand  
Is littered with razorblades I gave up on myself a long time to care  
The black clouds that swallowed, spit me out whole  
Sometimes I feel like I'm losing my soul  
At least that means I still have a soul after all
