Embrace

Ignite

I look outside I don't like what I see
The scene is split into communities
I try and try to stay positive
But these struggles and fights
They upset meStruggles
The Fighting
Don't throw away
Don't stop
Keep trying
Don't go away
Don't hate
Each other
We're familyThere is a strength... through diversity
There's a love, a bond... through unity
We are all gone... people in this scene
Embrace one and each other... we're familyWhat will be accomplished by
Dividing and hanging tides
In the days of the violent breed
This hatred, it killed our scene
Today we have another change
We must learn from our past
Don't break this time and purge
These family, these family embrace
