It's Alright

Paul Stanley

Oh yeahI'm pretty good at takin' care myself
I always get enough to get me by
So if you're askin' for a little love
Well baby, there ain't nothin' I won't try
You got me knockin' on wood
I never knew that you could
But, if you want me to stay for the night, it's alrightIt's alright if you want me
It's alright if you need me
Girl, if you want me to stay for the night
Girl, if you want me to stay satisfied
Girl, if you want me to stay for the night, it's alrightI knew the minute that I picked you up
That I would never wanna put you down
Don't try to tell me that you've had enough
Until you realize what you've foundI'll give you breakfast in bed
You're goin' right to my head
Girl, if you want me to stay for the night, it's alrightIt's alright if you want me
It's alright if you need me
Girl, if you want me to stay for the night
Girl, if you want me to stay satisfied
Girl, if you want me to stay for the night, well it's alrightGirl, you know I'll be leavin' in the mornin'
You got to take what you can
Yeah, you know that I'm givin' you the warnin'
Girl, it's just a one night stand, yeah
Come over hereOh, it's alright if you want me
It's alright if you need me
Girl, if you want me to stay for the night
Girl, if you want me to stay satisfied
Girl, if you want me to stay for the night, well, it's alrightIf you want me
It's alright if you need me
Yeah, it's alright
