

# Shine On

[Ryan Cabrera](#)

Given every moment I had  
Still I can never seem to keep up with you  
You're done with one mile and onto another one thousand  
Still I can never seem to keep up with you I know you'll be better off without me when I'm gone  
You know you're, you're beautiful, you're beautiful Shine on, you were made to  
Shine on, and you know I love you  
And even if we can or can't be friends  
I'll be with you until the very end  
So shine on, you were made to It's keeping me awake every night  
But I can never seem to give up on you  
I send up a prayer that I'm onto another one thousand  
But I can never seem to give up on you I know you'll be better off without me when I'm gone  
You know you're, you're beautiful, you're beautiful Shine on, you were made to  
Shine on, and you know I love you  
And even if we can or can't be friends  
I'll be with you until the very end  
So shine on, yeah Nobody's wrong, nobody's right  
Keep moving on  
Shine on, yeah  
You were made to shine on Shine on, you were made to  
Shine on, and you know I love you  
And even if we can or can't be friends  
You're gonna be brighter than you've ever been  
So shine on You're gonna be just fine  
Ooh, you're gonna be alright love  
You're gonna be just fine  
Ooh you're gonna be alright love
