You

Ignite

i wrap my hopes in you
i'm all in this my self
it's a chance i have to take
i'm all in this by my selfit's a chance i have to take
but this now time i have to break
i can't last another round
and this time you've knocked me...
outi wrap my world in you
all you can think is yourself
this is a time i have to leave
i'm in this by my selfi wrap my hopes in you
i'm all in this my self
it's a chance i have to take
i'm all in this by myself
