

# Into The Sun

[Sean Lennon](#)

And when the day is done  
I will follow you into the sun  
And after all my love  
I will follow you into the sun All the tears you cry  
Will one day be dry  
And like birds we'll fly  
Up into the sky  
Our love will survive And when the day is done  
I will follow you into the sun  
And after all my love  
I will follow you into the sun All these days gone by  
Just like waves roll by  
I can't wait to hold  
You inside my arms  
Our love will survive And when the day is done  
I will follow you into the sun  
And after all my love  
I will follow you into the sun
