

Oblige (feat. Cole Minor)

Doug Crawford

How can I oblige
How can i oblige
How can I oblige you
Error showing me reflections of my past life
If helpings not good enough what should I ask nice
It's not smart to make judgments when u clouded by fear
But I consistently put out a dope album a year yeh
Can't do what I told not the type to kiss ass
& ive Never been good at wrapping gift bags
Always been man to call how I see it
U say u wanna b a rapper but u don't really believe it
Ive Seen u on stage & U2 scared of it
Real recognize real & we come prepared for it
U only succeed If ur prepared to go all in
U play roll good, act balling
Ur music never takes then I'm one u calling
If it don't feel right I seperate myself
I'd rather tell u fuck off than I told u so
Keep ur integrity & Pride oneself don't take it personal
It's been written In stone that I'm supposed to blow
CHORUS
How can i oblige how can i concede
How am i to follow you when i was taught to lead
How am i to take a hand out its not for me
Im the type to fight for everything you got for free
How can i oblige how can i concede
How am i to follow you when i was taught to lead
How am i to take a hand out its not for me
Im the type to fight for everything you got for free
How can I oblige
How can i oblige
How can I oblige you
