Jigsaw

Kamchatka

We've got a new set of rules
enabling us to apply for grants
to take part in experiments of doubtful measures.
We've got a new set of tools
beyond surgical exactitude.
Consequenses are still to be verified.Never mind the missing pieces.
Time will tell if we were right.
All around us, altered species.
Still no telling time in sight.Some of this, some of that.
Charachteristics and qualities.
The construction of an animate jigsaw puzzle.
Everything misconstrued.
Make it up as we go along.
Just like little children playing with their building-blocks.Never mind the missing pieces.
Time will tell if we were right.
All around us, altered species.
Still no telling time in sight.
