Here Comes the Summer

The Undertones

Oh baby, baby what can I do?
You know you drive me crazy when I'm looking at you
The summer's really here and it's time to come out
Time to discover what fun is aboutHere comes the summer
Here comes the summer
Here comes the summerKeep on looking for the girls with their faces all tanned
Lying on the beaches all covered in sand
Stretching out their long legs lying in the sun
They know they're beautiful, having funHere comes the summer
Here comes the summer
Here comes the summerHere comes the summer
Here comes the summer
Here comes the summer
Here comes the summerLooking for the girls with their faces all tanned
Lying on the beaches all covered in sand
Stretching out their long legs lying in the sun
They know they're beautiful, they're having funHere comes the summer
Here comes the summer
Here comes the summerHere comes the summer
Here comes the summer
Here comes the summerHere comes the summer
Here comes the summer
Here comes the summerHere comes the summer
Here comes the summer
Here comes the summer
