

# If You Were Mine

[Cyndi Thomson](#)

If you were mine  
I would celebrate like everyday was Christmas  
If you were mine  
I would love you like it's nobody's business I would give you everything I had  
I would treat you right, I would make you laugh  
Baby, I would smile forever if you were mine If you were mine  
Baby, night would be a romance novel  
If you were mine  
I would quench your thirst like a tall glass of water You would be my one desire  
I would kiss you like a house on fire  
Baby, I would burn like crazy if you were mine  
If you were mine, if you were mine, oh yeah You're everything I can't resist  
Just to hear your voice is bliss  
It is, yeah it is If you were mine I would shout it out  
We'd show the world what love's about  
We'd never sleep in our big old bed  
We'd just kiss and kiss and kiss instead If you were mine, I would be complete  
And nothin' would be missin', baby  
If you were mine, if only you were mine If you were mine, if only you were mine  
If you were mine, if only you were mine  
If you were mine, if only, baby If you were mine, if you were mine  
If you were mine
