Northern Muse

Van Morrison

And she moves on the solid ground
And she shines light all around
And she moves on the solid ground
In the County DownAnd she moves on the solid earth
And she knows what her wisdom is worth
And she moves on the solid ground
In the County DownShe lifts me up
Fill my cup
When I'm tired and weary, LordAnd she keeps the flame
And she gives me hope
Carry onIf you see her, say hello
Well, she's someone that I surely know
When I was young she made me roam from my home
In the County DownShe lifts me up
She filled my cup
When I'm tired and weary, LordAnd she keeps the flame
And she gives me hope
To carry onIf you see her, say hello
Well, she's someone that I'd surely know
When I was young she made me run from my home
In the County DownAnd she moves on the solid ground
And she moves in the County Down
In the County Down
When she moves
She gotta go
