

# Thunderbird

## Terrateya

Fly away  
To the clouds  
Air is hot the fields dried out  
The sun is burning tear him down  
The happy people cheering, laughing  
Heated souls go let them drownFly away  
Bring the storm  
Go and smash the gates of heaven  
Go and let the shadows rise  
Go ascend into the downpour  
Go ascend and sing your tuneMy wing beats crescendos  
I soar in rain I bring the storm  
You hear me  
Im roaring  
I make the heavens fall  
The sky lights divided  
The bright ray of my wings  
Shades of my body  
ThunderbirdFly away  
Leave the flood  
Sky is crying, air is singing  
Water dancing, thunder growling  
Plants are seeded, air is cleaned  
The sun is sleeping in your wake
