

# Blood On My Hands

[Xandria](#)

Silver stars in my black night  
Cold as ice but beautiful  
Wandering through broken shadows  
The river of life is all filled with sins  
The water I drink is the blood on my hands  
No-one sees how I'm burning  
No-one feels this yearning  
So come taste this black poison - You never reach this heart  
And forgive my obsession - Something tears me apart  
From myself  
Silver stars in my black night  
Cold as ice but beautiful  
Wandering through broken shadows  
The river of life is all filled with sins  
The water I drink is the blood on my hands  
Waiting for my damnation - your prosecutor's here  
In my own accusation - you can't run from yourself  
Oh we're living these lies all alone  
So come on and throw the stone  
Silver stars in my black night  
Cold as ice but beautiful  
Wandering through broken shadows  
The river of life is all filled with sins  
The water I drink is the blood on my hands  
Pray to the gods I have sold in this game of live and let die  
Pray for my soul in this world to deliver me from my sins  
Pray...All that's been and all I see now  
Only a ghost of what I called...  
Silver stars in my black night  
Cold as ice but beautiful  
Wandering through broken shadows  
The river of life is all filled with sins  
The water I drink is the blood on my hands
