

Core (In Time)

David Garza

Think like you haven't ever
Try to remember the days
When we would talk till the light
Before morning Your summer neck is burned
With salt and sand
I lost my fingers
Trying to find your old hands, yeah In time maybe we'll discover
We could've been closer to the core
In time maybe we'll discover
We could've been closer, closer Think like you haven't ever
Try to remember we're alive
I haven't slept for three nights
And I see things now, yeah yeah In time maybe we'll discover
We could've been closer to the core
In time maybe we'll discover
We could've been closer, closer yeah In time maybe we'll discover
We could've been closer to the core
In time maybe we'll discover
We we could've been closer, closer Aren't you gonna break my fall?
Aren't you gonna break my fall? In time
In time
In time
In time In time
(Try to remember we're dead)
In time
(Try to remember we're dead) In time
(Try to remember we're dead)
In time
(Try to remember we're dead)
In time Try to remember the days
