Breathe In

Frou Frou

I read you and God, I'm good at it, I'm so spot on
Chord shapes in air go press that dissonance if you dare
And you breathing in finesse an innocent
From her partyingAnd I'm high enough from all the waiting
To ride a wave on your inhaling
And I'm high enough from all the waiting
To ride a wave on your inhaling'Cause I love you, no
Can't help but love, you knowWhat part of no don't you understand, I've told you before
To just get off my case this isn't happening stop this now
And I where was I? I have to be somewhere
Now where did I put it?And I'm high enough from all the waiting
To ride a wave on your inhaling
And I'm high enough from all the waiting
To ride a wave on your inhaling'Cause I love you, no
Can't help but love you, noIs this it is this it is this it?
Yes, hello we're back and we're taking calls
Now what was the question?And I'm high enough from all the waiting
To ride a wave on your inhaling
And I'm high enough from all the waiting
To ride a wave on your inhaling'Cause I love you, no
Can't help but love you, no
