

Addicted (feat. Greg Laswell)

[Morgan Page](#)

You say that you'd be back now
After your last more flight
And so I see you off well
And look the other way with all my might[CHORUS]
And I, I might be addicted
To where and how you land up on your feet
Yeah, I might be addicted
To how you always get the best of me
I say out loud this is the last time
I say out loud this is the last time I wonder if you'll back down
There is no end in sight
I'm waiting for the right one
And when we'll ever really get it right[CHORUS] Universe, how strong am I?
There's one more exit flies on by
Yeah, I, I might be addicted
To where and how you land up on your feet
Yeah, I might be addicted
To how you always get the best of me [x2]
